Rodrigo Gregori

Software Engineer Specialist at Zup Innovation
Joinville, Santa Catarina, Brazil

Summary

I have almost 20 years of experience in IT, ranging from development, both web and desktop, to systems and network administration. At work I like solving problems and I am enthusiastic with new languages, technologies and best practices. Most of my work experience is related with systems management and automatization of tasks.

Experience

Zup Innovation

6 years 1 month

Software Engineer Specialist

October 2022 - Present (3 years 9 months)

Senior Software Engineer

June 2020 - October 2022 (2 years 5 months)

Joinville, Santa Catarina, Brazil

Universidade Católica de Santa Catarina

Professor

August 2015 - July 2024 (9 years)

Joinville Area, Brazil

Part of the structuring team of the Software engineering major.

Taught various subjects including:

- Artificial Intelligence
- Mobile Programming
- Systems Security
- Object Oriented Programming
- Computer Networks
- Operating Systems
- Databases

Member of the robotics team, helping with orientering students.

Prefeitura Municipal de Joinville

Network Specialist

September 2007 - May 2017 (9 years 9 months)

Secretaria de Administração e Planejamento - Unidade de TI

Part of a four men team responsible for infrastructure and automatization of internal tasks.

Reorganized and documented the physical network of the city hall.

Implemented a Continuous Integration / Continuous Deployment environment together with the development team, in order for faster and reliable publishing of internal and external tools.

Wrote many tools for daily tasks automatization, both using shell scripts, Perl, Python, PHP, C# and C++.

Integrated all the city departments via VPN, so that both they could be remotely accessed and they could share the city's network and servers infrastructure.

Planning, installation, configuration, and support of Windows and Linux Servers, migration and implementation of a virtualized environment, implemented on top of Citrix XenServer.

Implementation, configuration and management of various services, including: Windows Server Update Service (WSUS), Systems monitoring with Nagios, database systems such as MySQL, PostgreSQL, Microsoft SQL Server, Intersystems Caché, Openfire Jabber system, among others.

Colégio Santo Antônio

Teacher

February 2010 - January 2012 (2 years)

Teaching Computer Networks.

Siemens Ltda

Development Analyst

February 2005 - September 2007 (2 years 8 months)

Curitiba Area, Brazil

Performance in a two-men team responsible for great part of the IT infrastructure of a medium size department (100-200 employees) of the enterprise.

Adapting build systems of know-how transfer projects, mostly migrating the build systems from Green-Hills C compiler to GNU C and C++ compilers.

Configuration, monitoring and vendor management to keep and maintain the storage and backup services using open source software like bacula.

Planning and implementation of the incident management system for the department.

Commitment in the planning, installation, configuration, and support of open source software solutions like MoinMoin, fosWiki, phpScheduleit, openBiblio among others.

Process enhancement identification followed by planning, proposal and implementation of web based solutions mostly written in Perl, PHP, and bash – training management system, document management, among others.

Planning, installation, configuration, and support of OpenLDAP and Samba as a primary domain controller. The team completely managed this network, involving capacity planning, switches configuration, asset management, software licenses, Windows Server Update Service (WSUS), among others.

CITS - Siemens

Jr. Development Analyst

2003 - 2005 (2 years)

Curitiba Area, Brazil

Education

Universidade Tecnológica Federal do Paraná

Master of Science (M.Sc.), Computer Science · (2012 - 2013)

Universidade Federal do Paraná

Bachelor, Computer Science · (1999 - 2003)

Federal University of Technology - Parana

Technician, Electronics · (1994 - 1998)
